• 7/8" (22mm) actual thickness

Quantity*

- _____ **300-1050** Galvanized steel
- _____ **300-1051** Aluminum

***Quantity must be filled in to place order.**

Options: (Check options needed)

- Locking handles
- Drop handles on mesh filters

Note: All custom baffle filters include drop handles.

- All custom filters must be ordered using their actual dimensions.
- Actual height dimension is the direction of the baffles.

Note: Measurements must be the EXACT size you require. Dimensions shown in the catalog for stock filters are *nominal*, which means the dimensions are approximately 1/2" (13mm) less than listed. For example, a 20" x 20" (508mm x 508mm) filter actually measures 19 1/2" x 19 1/2" (495mm x 495mm). Custom filters, however, are made to the exact size you order [with a + or - 1/8" (3mm) variance].

Spacers are available up to 6" wide, call for pricing.
